AN AVIATOR FLEW ACROSS IRISH SEA

Lorraine Made Remarkable Cross-Water Trip But Fell Into Dublin Bay

London, Sept. 15.—Robert Lorraine, the actor-aviator, flew across the Irish channel yesterday. He left Holyhead at 11:05 Sunday morning, and travelled 60 miles, being out of sight of land for more than 40 miles, until he came into sight of the coast of Ireland. He gave out, and he dropped into Dublin Bay, sixty yards from shore.

The aviator, who had been flying a couple of circuits of Holyhead Bay, started from Penrhos park, Lord Shand, and had disappeared from sight in eight minutes.

It was not known here that he was going to cross the channel. Yesterday morning in the bay he had, it is said, seen an aeroplane descending from a great height. It struck the water near the Dublin coast.

Lorraine, who was wearing a life-jacket, swam towards the lightship, from which he was rescued, and towards the Dublin steamer Adela, towed a boat and drew the party across the aeroplane to the side of the steamer.

Aeroplane Not Hurt.

After his remarkable flight, Lorraine set out again in a boat for the Adela and superintended the hoisting of his aeroplane to her deck. He found the aeroplane in perfect condition.

The Gnome engine was in perfect condition.

Lorraine proceeded to Dublin, and later returned to Holyhead, having made a return over-sea journey by steamer.

It was a hazy morning. A deck-skull of the Adela first noticed the aeroplane and called the captain "Look at that great bird." The captain recognized an aeroplane at great speed towards Dublin. It soon flew over the city, and the bullet was lost in the haze. The Adela later crossed the track of the aeroplane, and the latter was seen floating partly submerged in the sea. She lowered a boat and went to see to it, and when he was soon observed on the rocks under the lightship squeezing the water from his clothing.

A Sea Wire Broke.

Lorraine, in which he got over the channel, he met with considerable haze. He had some trouble with his engine. After he had covered one-third of the distance, he was unable to start, and he was compelled to wait until someone, he was told, was sent to get into the general hospital.

More nurses have been employed there at present. Dr. Dawson, medical health officer, is ordering more wells containing nitrated water closed every day.

ROOSEVELT NOT ASKED.

Senator Lorraine's Friends Plan a Little Dinner as an Offer.

Chicago, Sept. 15.—A counter-irritant to the sharp Col. Roosevelt delivered when he was invited to the Hamilton Club's banquet if Senator William Lorraine was a guest. Lorraine's friends are planning in his honor one of the most remarkable banquets on record.

President Taft is to be asked to accept a seat at the table. Uncle Tom Cannon is slated to be toastsman. The Roosevelt is to be pictured because he is a Democrat.

The sponsors of the plan say the affair will not be political in character, the plan will be to invite the friends of the senator to a dinner.

The sponsors of the plan say the affair will not be political in character, the plan will be to invite the friends of the senator to a dinner.

Seator Lorraine, it is said, does not know his friends' plans.

THE BRITONS WHO MAKE THEIR HOMES OVER SEAS

Board of Trade Figures Show That the Tide of Emigration from Great Britain is Increasing—Satisfactory Increases are Shown in Every Com- partion of Figures—United States Claims Lion's Share of Emigrants Out of Those Who Go to Colonies.

London, Sept. 15.—The sustained efforts of those who are endeavoring to forward the imperial cause by promoting emigration within the empire have been rewarded in the form of an increase in the tide of emigration from the old country to the overseas states. The early figures for the seven months ending July 31, compared with the corresponding period of the previous year, show that this same satisfactory increase in inter-sea emigration is again evident.

Leaving out of the question the emigrants who went through the colonies on their way to the homes across the sea, the total number of emigrants during July was \$4,521, as compared with \$3,675 in the corresponding month last year. Of this total no fewer than 22,667—roughly speaking, two-thirds of the emigrants for the year, emigrated to various parts of the British empire.

The following table shows how the flow of emigration was directed with regard to the overseas states and British possessions during July:

British North America 16,382 10,996
British South Africa 12,406 10,142
India 2,958 2,925
Canada & possessions 626 622

The emigrants from the United Kingdom to countries outside the British empire—the United States claimed a lion's share—14,182 out of a total of being wiped out.

RODE TOPS OF CARS.

Catseye Man Perilously Took the Top Deck of Passenger Train. Medicine Hat, Sept. 15.—A man who had been a constable and a mounted police at Medicine Hat that he was a well known resident of Catseye Hill, took the top deck of the C. P. R. Murphy scoured the snow-covered, winding byways, and elected to travel on the top deck of the passenger coaches. He also received the efforts of the train crew who put him back on the deck of back again after he had been hustled to the ground. Before his fall, he had a lively run along the top of the train, and it took the crew and the engine driver a good deal of time to get him serving a week at the Hat. Murphy stated he had beaten his way from Calgary to Shuswap before he was discovered.

CALGARY BEGINS ITS FIGHT AGAINST TYPHOID

The City Secures One Bell Hat as Economic Hospital—Typhoid Epidemic Meanwhile Shows No Sign of Abatement.

Calgary, Sept. 16.—Mayor Jamieson has telephoned the C.N.R. authorities to the effect that the general hospital was not large enough to accommodate all the patients for admittance, and further money will have to be obtained for this purpose.

The C.N.R. purchased the drift hall and site to exchange the site of the old hospital, and the new one on the right of way the railway purchased.

The local representatives of the C.N.R. have agreed to rent the property for the sum of \$1000 a month only.

WILL COST MORE.

The cost of erecting the general hospital will be \$100,000, and the C.N.R. will have to pay for admittance, he has to wait until someone's convalescence is moved out, and then he can get into the building required before the building will be suitable for the purpose.

No Abatement.

Meanwhile, the typhoid epidemic shows little sign of abatement. Patients are applying for admittance to the local hospitals daily, and the overcrowding continues. When there are no more beds available for admittance, he has to wait until someone's convalescence is moved out, and then he can get into the building required before the building will be suitable for the purpose.

THE Caledonian Society.

A painful accident took place yesterday afternoon on the grounds of Queen's avenue school, Vivian, the eight-year-old daughter of George Dutton, a Colonist, was playing on the grounds during the recess when she fell, sustaining a compound fracture of the left arm. Dr. Stinson was called and attended to injuries. A similar accident occurred last December.

MAY PASS THROUGH COUCH. There was no appearance of a case of mumps in the city to visit the Canadian Manufacturers to Edmonton. Two days ago the mayor received a wire from the Canadian Medical Association, Sept. 21st, and adding that full information was in the hands of the secretary of the Canadian Medical Association that he had no information and that the railway officials in Edmonton have received instructions regarding the case of the train which goes for no stop over.

HARVESTING IN LACOME. Senator Peter Talbot of Lacome spent yesterday in the city on a private visit.

He stated that harvesting is nearly completed in the Lacome district as it is in the Edmonton district. The work of stacking and threshing was delayed somewhat by unfavorable weather, but is now in full swing again.

Some of the late oats were slightly damaged by frost, but as it was a light frost and the grain was not affected by the slight frost were not very much, if any.

The farmers are utilizing some grain at this time, they can smutch from the grain harvest in putting up hay, and almost every piece of hay Meadow will be cut this fall.

Fall wheat seeding is also about completed, and the new crop is growing very fast and looks exceedingly well.

YESTERDAYS' ASSOCIATION. At the meeting held Wednesday night at the Amherst, Major G. G. Bach, and some 100 veterans representing service to the Empire in many quarters of the world, was held. It was decided to have a special meeting this evening, September 21st, at eight o'clock, at the armory of the 10th Yeomanry, 10th Street, for the purpose of electing officers and discussing several important questions of interest.

It was thought at the meeting, to be in keeping with the dignity of this city and district, to make the hall available for the purpose of electing officers and forwarding the address to the headquarters at Winnipeg, that the Amherst, Major G. G. Bach, the Amherst branch of the association would carry the flag in the show. For the convenience of those veterans who cannot attend the next meeting, it was decided to place an honor roll in the daytime at Major Griesbach's office, 10th Street, and in the evening at Power vs. Denman.

the 10th armory. All veterans can sign the roll, and should, for their own advantage do so, and get as many comrades to do the same as possible.

All decided upon this afternoon after consultation with the city merchants. The city council was petitioned and to do this the matter to the mayor to do.

AIKEN—ACTON.

At the residence of G. H. Stoddart, Sixth Street, on Wednesday evening, W. T. Aiken, of the post office, who was on his way to marriage to Miss Margaret Acton, Rev. J. E. Huguenin performed the ceremony. The bridegroom had been home to see the happy couple departed upon a short trip.

CUT HIS FOOT WITH ADZE.

WALTER COOPER, of 616 Sixth Street, was employed in the repairing department of the C.N.R. shops after a painful accident yesterday afternoon, the result of which, he had to be hospitalized. He was taken to the hospital, cutting his foot at the right ankle. He was taken to the public hospital, where the surgeon had him dressed and his injuries dressed. Last night he was resting easily.

WAS NOT HEALTH OFFICIAL.

Two days ago a man who stated that he was a member of the health department, secured admittance to a hospital on Seventh Street. Accepting his admission in good faith the hospital staff, conducted through the hours and into a sick room where a child lay ill. The man was not acting under instructions received from him and is unknown to the hospital. It is believed that he stated that all officials of the health department carry badges which they may be used upon to produce as evidence of their bona fides.

WILL NOT STAY IN CANADA.

The annual meeting of the Law Student's Society was held on Tuesday evening in the District Court Room. The election of a candidate of the year was the chief feature. WHITE COAL ON THE ATHABASCA

Engineers Fielding and Party leave for Fort Chipewyan on Friday afternoon. The Rapids are Two Hundred and Eight Miles Due North of Edmonton.

John A. Fielding, C.E., of Toronto, who has been consulting for the city council to survey a route for the Athabasca river for the purpose of ascertaining the feasibility of a power development, has left Edmonton for Athabasca, 108 miles north of Athabasca Landing.

The party, which is composed of ten men, will proceed by stage to Athabasca Landing and from there will go up the river to the river to Grand Rapids.

The trip to the scene of operations will occupy a month and a half days and Mr. Fielding expects to finish the survey of the river at that point by a month from now.

Make Sure.
"Our present trip," said Mr. Fielding to the Bulletin last night, "is simply to determine the cost of the work and finding out all the conditions. Later on I will make a report to the city council."

I have never been on the Athabasca river, from the reports I have received I am led to think that the cost of the work will be high and the development of power at a much less cost that the city is now paying.

The amount of coal necessary to supply power to the city at present is not enough and the expense correspondingly great.

"From what I have been able to find out I am of the opinion that there is a market for the Athabasca and that it is the best power proposition within reach of Edmonton."

At Grande Flaples there is a very rapid fall for a number of miles, which would necessarily readily lend

NOTED SHIPBUILDER RETIRES.

Management of Firm That Built Big
White Star Liners.

Belfast, Sept. 15.—Mr. Alexander Montgomery Carlisle, one of the world's leading shipbuilders, has sold his interest in the firm he founded and chairman of the directors of Harland and Wolff of Belfast. All his working life, Mr. Carlisle has been connected with this great firm, passing through all the stages of employment to the highest position in the business, but he has now retired from active work. His health, however, has deteriorated, and he has now remanded him of her claims. Happily, as he has had a son of 16 years of age, he may hope for a long autumn in life in which to enjoy his belated hobby.

Before surrendering his position, Mr. Carlisle had arranged for the launch of the two great vessels the ocean known as the "White Star Liners," which cost \$10,000,000, each with a tonnage of 45,000. They are much bigger than the previous two, but have the same great speed, and are to be built especially designed for a rate of 21 or 22 knots. Comfort, steaming, and navigation, rating, are to be the chief aims of the new liners, which were the ones aimed at in their construction.

Mr. Carlisle is a great believer in the big ship, and he has seen a remarkable growth in the size of Atlantic liners during his long career.

Mr. Fielding, who is the managing director of the Canadian Transport, is one of the best-known power developing engineers in the East. He has been a member of the Canadian Institute of Engineers and the Toronto Institute, and is a member of the Institution of Engineers and Architects of India, and has also contributed very largely to the engineering world.

He has just completed the design for a dam one hundred and fifty feet high, one thousand feet long, and one thousand feet wide, for the White Star Company had a tonnage of 3,000, the second Oceanic liner to be built for the White Star Company.
